INTRODUCTION

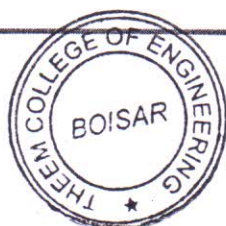

The career fair a curricular activity organized by Maharashtra State Board of Technical Education serves its purpose par excellence. We applied for the Static Career Fair 2019. By our fortune we got an opportunity to be a part of this curricular activity by Static Career Fair 2019.

It gives me immense pleasure to inform you that our Career Fair received great response from the Rural areas Schools and their students. As Career Fair on Wheel is an activity to visit school students in the rural areas and provide them the thorough knowledge of Technical Education and introduce them with best career opportunities. We organized it during 25th May, 2019 to 8th June 2019. During this project 49 schools were invited and they attended the program, we tried to attain aim of the MSBTE through this project.

We also got full support from the speakers invited for the fair. Speakers enthusiastically guided students on Technical Education, Contemporary Scenario, needs and demands, better job opportunities etc.

It is to inform that students gave overwhelmed response to the guidance. I also want to inform that this Static Career Fair really helped students to make them aware with Technical Education as they were lacking efficient able resources.

The Static Career Fair was appreciated from every corner of educational societies, schools, students and parents. Many of the Institutes were eager to participate in such activity every academic year.
