

Best Practice No 01

*“Transform students project into
paper publication”*

1. Title of the Practice:- Transform students project into paper publication.

2. Objective; -

- To encourage students to opt Research and Development as career.
- To participate various events like project competition, paper presentations etc.
- To develop awareness about participation in different events held at state, national and international level.
- To encourage students to the area of Intellectual Property Rights.
- To conduct useful courses and technical seminars, workshops & conferences as per the current industry need.

2. The Context: -

The purpose of this activity is to motivate Engineering Graduates to opt their career in Research and Development to accelerate the economic development of the country. There is urgent need to Right from first year of engineering, students need to be exposed to recent technological developments and to be encouraged to solve day to day problems of industry and society. This activity organized by the institute is intended to give students a stepping-stone for entering into the Engineering industry.

3. The Practice:

Theem College of Engineering (Theem COE) have initiated a step ahead to conduct National Conferences in the campus under the name of THEEM (Trends and Herald in Engineering Excellence and Metamorphosis).Theem COE conducted the first National Conference THEEM-2020 in the year 2020 which had boosted us towards the present two days conference THEEM-2022. The conference received more than 100 research papers of various areas of specialization from UG and PG students out of which 94 papers were selected by the publication committee and accepted for publication in International Journal of Advance and Innovative Research (IJAIR).. It is an opportunity for showcasing the efforts and expertise in creating innovative solutions to real-world problems by engineering students. The students exhibit their project work along with papers, presentations and publications. Like every year, this year also there was a selection of the best paper presentation of each track. Prize Distribution was held where he selected teams were awarded with certificate.

5. Evidence of success:

Dr. Shan presented his keynote address on the topic "Industry Vision 4.0" in which he discussed the Challenges in Research and Development also he emphasized that students should come out with different innovative ideas for rural area development. Due to interaction of industry professionals, small and medium scale entrepreneurs with students involved in conferences, seminars etc. resulted in the improved quality of projects. It enhanced in the application knowledge of students. Students are actively participating in different activities, it makes a positive improvement in students like personality development, communication skills, management skills, programming skills etc. As students and faculty work together, it builds team spirit among students.

6. Problems Encountered and Resources required:

Research confirms that under the right conditions project-based learning, although sometimes difficult to implement, can improve student learning. Students were hesitating to take part in paper presentation because of lack of confidence and daring. Students were Feeling burden of academics to participate in activities and to motivate students for participation is challenge.

About The College

H.J.Thim Trust, established **Theem college of Engineering** in 2009 at Boisar (E) with an objective of "Success through quality Education" for the development of youth who plays a decisive role in shaping the destinies of nation. The institute's serene and tranquil surroundings create a carnival atmosphere to develop students overall growth in technical Education as well as humanities.

Theem College of Engineering is approved by AICTE, Government of Maharashtra and DTE, and Affiliated to university of Mumbai. The institute's is awarded with B+ grade by NAAC.The institute's is remote centre of IITB NMEICT(MHRD,Govt.of India).The institute's is emerged as the only premier Engineering college in Boisar (E) with and intake of 420 students in the following graduate engineering program,

- Computer Engineering
- Information Technology Engineering
- Electronics & Telecom Engineering
- Mechanical Engineering
- Civil Engineering
- Automobile Engineering
- Electrical Engineering
- Computer Science Engg.(AI & ML)

We Also Offer Diploma Engineering Program with 240 Intakes In,

- Computer Engineering
- Electrical Engineering
- Mechanical Engineering
- Civil Engineering

About IARA

Indian Academicians and Researchers Association (IARA) is an educational and scientific research organization of Academicians, Research Scholars and practitioners responsible for sharing information about research activities, projects, conferences to its members. IARA offers an excellent opportunity for networking with other members and exchange knowledge. It also takes immense pride in its services offerings to undergraduate and graduate students. Students are provided opportunities to develop and clarify their research interests and skills as part of their preparation to become faculty members and researcher. Visit our website www.iaraedu.com for more details.

BEST PAPER PRESENTATION AWARDS

Best Practice No 02
“Felicitation of the Academic Topper’s”

Best Practice 2:

1. Title of the Practice: “Felicitation of the Academic Topper’s”

2. Objective of the Practice:

- To improve academic performance by encourage the students.
- To motivate the student for achieving top rank at the University of Mumbai by developing competition among them.
- To praise their diligent work in academics.

3. Context

The purpose of this is to create interest among students in academics and to provide many Industrial Visits which help in their minor and major projects of their academics. The award show is organized by the institute to motivate the student for the academic activities.

4. The Practice

Each and every year, an award show is organized to appreciate with awards the topper students in academics. At the start of the event, felicitation of guests is done and then all the student toppers from various departments were felicitated for their sincere dedication to achieving magnificent results. All the topper students are appreciated by the delegates and hence really to motivate juniors.

5. Evidence of Success

The program is conducted to inspire the student for future goals and contribute to well-being of the society and the nation. This activity has created a competitive environment among students for achieving a high score in their academics. Every year, the outcome and performance of the student are being increased by this activity which led some students to secure ranks at the level of University of Mumbai.

6. Problems Encountered and Resource Required

Problems Encountered:

Resource Required: The administration had adjusted date and timings according to the student’s comfort and provided bus facility from Boisar Railway Station to the college for both students and parents those were attending for this event. This was one of the major events conducted by Theem College of Engineering that inspired the student for achieving their future goals.

Best Practice No 03
***“Counselling and Career guidance
for Secondary and Higher
Secondary Students”***

Best Practice 3:

1. Title of the Practice: "Counselling and Career guidance – for Secondary and Higher Secondary Students".

2. Objectives of the Practice:

Objectives/Outcomes:

- To inculcate knowledge of technical education and career options to the school students.
- To develop positive attitude towards technical education after guidance and suggestion.
- To enhance the confidence among students to grab every possible employability opportunity
- in the technical field.
- To plan their career by providing in-depth understanding of opportunities at the key transition
- point and translate these effectively into appropriate decision and action

3. The Context

The Counselling and Career Guidance is a major activity of an academic institution that assist students to adopt their professional goals. This activity is for secondary students and engineering students to give complete awareness about the job options around the world.

4. The Practice

This activity is done to the 10th and 12th standard students to build-up their awareness on science and technical education. Our teaching and non-teaching faculty conduct career guidance on technical education in various schools and junior colleges. They counsel them how to do career planning and guide them how to prepare for entrance exams to get admission in a technical institute of their choice. They also give knowledge about seat availability of different engineering branches at various institutions.

5. Evidence of Success

Career guidance has supported the students to excel in the campus interviews, higher studies and various other competitive exams. Students have been transformed into matured and responsible technocrats. Through the career guidance, students boosted their confidence to choose their suitable career options. The career guidance counselling has built-up strong bond between the faculty and students which in turn has helped in their careers.

6. Problems Encountered and Resources Required

Problems encountered: There were many problems encountered during the Counselling and Career Guidance Exhibition such as convincing the schools and colleges authority to attend the programme after COVID19 pandemic, attendance of parents and their wards were less due to a remote location.

Resources Required: The team convinced the administration of the school by offering time which does not affect their regular schedule. The team provided proper writing material to students and parents to convey the message and importance of taking part in this Counselling and Career Guidance.
