## Report on Soft-Skill Training Program for the academic year 2021-22

At Theem College of Engineering, huge emphasis is laid upon the all-round development of students thereby: preparing them to face challenges of life post they complete studies at college. With the ever-increasing competition, quintessential component such as soft skills are of paramount importance for a successful career of pupils who wish to succeed in their career and have better job prospects. It is now well-established that many students who otherwise perform well in the traditional examination may not be very sound in their communication skills. Hence, the sole objective of Soft-Skill training program is to assist students in inculcating soft skills and developing their personalities, to empower and raise their awareness of the dynamic milieu.

The aptitude training is absolute vital for students, as the first round conducted by most of the reputed companies is an aptitude test, to test their quantitative and logical abilities. hence, it is a crucial round to qualify for further rounds of interview. the students are imparted in-depth knowledge on the topics such as quantitative aptitude, data interpretation, reasoning and verbal ability & reading comprehension. regular sessions are conducted on mock aptitude tests, psychometric tests, group discussions, resume writing, technical tests, interview skills, grooming, body language so on and so forth.

This year due to the ongoing pandemic situation, training and placement office decided to conduct the Soft-Skill Training online. This training was three weeks long conducted for students of batch 2022-23 of Theem College of Engineering. The online training was conducted on Google Meet platform with around 172 students participating from branches of Civil, Mechanical, Automobile, Computer, IT, EXTC and Electrical engineering departments.

We firmly believe that the knowledge shared in this training would help easing the transition of the college students into the workspace and prepare them for demanding situations that they may encounter in their span of career. Soft skills and aptitude training helps our students to augment their employability and potential and face challenges of the present times.

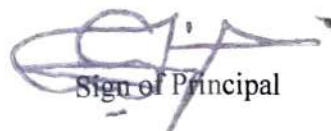

The online training included sessions on group discussion, personal interview, resume writing and general aptitude. Students also joined the google classroom that was created for aptitude test to ask their queries and get the doubts solved. The schedule of the event was as follows:
