Report on
Induction program on "MINI PROJECT"

An Induction Program for Second year mechanical engineering students on Mini Project was arranged on 11/02/2021 at 4:00 pm by the Department of Mechanical Engineering.

The program started with the introduction of speaker Prof.M.A.Gulbarga by Prof.Harshal Ahire.Then Prof.Gulbarga explains in details about mini project and which points should considered while selecting the topic for mini project through various examples.

After that second speaker of program Prof.Tejal Raut explains the importance of mini project regarding their academics. After the speech students asks their doubts and proper solution was given by Speakers.

Prof.Shadab Ansari sir proposed the vote of thanks. In the program total 56 Students were participated.

Topic: Emerging Trends in Telecom Industry

Date & Time: 22/03/2019

Name of Expert: Mr. Aadesh B Chauhan, Team Leader Reliance Jio, Mumbai

Mr. Aadesh B Chauhan had conducted the Seminar regarding Emerging Trends in Telecom Industry for Electronics & Telecommunication field. He has explained the current technology use in Telecom section with the help of various applications in very interactive way. He has also explained the complexity of future in 5G Technology. The session was very helpful and successfully conducted.

Type of Activity: Training

Title: Finite Element Analysis for Engineering Applications using ANSYS Software

Name of Resource Person: Mr. Ashish Vajra

Description:

1. Objective of Activity:

To enrich and manifest students the CAE domain activities of real engineering industries. Through this training course students will come across the applicability of the method and different types of the formulation procedures of real world engineering problems.

2. Intended Audience:

Students were exposed to advanced level analysis techniques of ANSYS software beyond their academics syllabus. Improvement in their skills of software analysis and prediction of desirable output of model under applied working conditions. From now on students can easily work in ANSYS software, they were promoted in the basics and applications of Finite Element Methods to solve different types of engineering problems. They have gone through various types of modes of analysis performed on engineering models and some real world practical applications. They became capable to perform analysis and get approximate results, mechanical properties. They were also benefitted in defining extended limits of applied working conditions of different engineering specimens, engineering mechanisms and machine components. Also they got exposure of using ANSYS software for automobile designing and testing of different components as like engine, chassis and gearbox etc.

Type of Activity: Faculty Development Program

Title: Finite Element Analysis for Engineering Applications using ANSYS Software

Name of Resource Person: Mr. Ashish Vajir

Description:

1. Objective of Activity:

To enrich and manifest our faculties about the advance applications of Finite Element Methods with respect to teaching and academic point of view. Through this program faculties will come across the advance applications of Finite Element Methods to accept and expose challenges in teaching our students with different commercial software as like ANSYS, FOAM, STAR CCM⁺ etc..

2. Intended Audience:

Faculties were exposed to advanced level analysis techniques of ANSYS software beyond their academics and upto the advanced level. Hence promoting their CAE domain practices of real engineering problems and projects. Now they can easily experience our students the real and project based challenges during the course of academics. In the entire course of development program they have gone through various types of analysis modes performed on real world practical applications and solving different types of complex engineering problems. This program helped in improving their teaching from basic to more visualized, assisted background of technical virtuality.

Title: Latest Trends in Automobiles

Name of Resource Person: Mr. Shahid Merchant

Description:

1. **Objective of Activity:** To expose students; latest technical innovations in modern vehicles and Automatic Advanced Safety Programs. Functioning of sensor technology and latest technical gadgets used in today's smart cars.
2. **Intended Audience:** The team of Safetec Auto Security Solutions explained their technically innovated and modified program & accessories of automatic Tyre Pressure Monitoring System (TPMS), the display of all wheels tyre pressure on the panel device screen and explained how the monitoring sensors work as integral part of the TPMS program. The expert also taught about the implementation of automobile tracking system through GPS and how actual tracking is done to prevent from accidents and vehicle theft. For all the students he also conducted the session of virtual and real exposure of his latest technical gadgets used in modern smart cars. Students came to learn a lot of valuable things under the specified topic of Latest Safety Trends and Alarming Techniques of Automobiles. They planned their future achievements under this domain and some of them planed their future goal with valuable potential and enthusiasm during the workshop session.

Enclosed:

- 1) Topic/Syllabus to be covered
- 2) Schedule of the activity

Search Engine Optimization

From here on, I'll be explaining various points on search engine optimization (SEO)!

Googlebot

Crawling content on the Internet for Google's Index every day, every night, non stop.

Executed by Rocky Sir , tech Head
Sujen Consultants & Technology Pvt Ltd.

Index for SEO

1	How does a Search Engine Work?	3
2	Parts of a Search Engine	4
3	What is SEO Copywriting?	8
4	Keywords	9
5	What is On-Page and Off-Page SEO	18
6	White hat and Black hat SEO	24
7,8	Website domain, design and layout	26, 27
9	OPTIMIZED KEYWORDS	47
10	OPTIMIZED METATAGS	51
11,12	TITLE OPTIMIZATION & OPTIMIZED ANCHOR	53, 55
13	CONTENT IS THE KING	56
14	VERIFYING A WEBSITE	58
15	LINK BUILDING	61
16	Mobile SEO	64

What is SEO ?

Search Engine Optimization (SEO) is the activity of optimizing web pages or whole sites in order to make them search engine friendly, thus getting higher positions in search results.

I would explain simple SEO techniques to improve the visibility of your web pages for different search engines, especially for Google, Yahoo, and Bing.

Report of Event

Topic: Software Training Program on Estimating & Costing.

Date and Time: 23/07/2018 from 11:00am to 01:00pm

Name of Expert: Mr. Shivraj Patade

Mr. Shivraj Patade has conducted the Expert lecture on "Software Training Program on Estimating & Costing" for the students of BE final year civil engineering in a very interactive way and explained the various important ways to direct their career in the respective field. Whole session was very interactive and educative. The session was very helpful for the students of civil engineering and it obviously helped them to think in this particular direction. Students learned a great things about various estimating and costing methods via use of different softwares. The session was a joy to attend and more sessions will be much appreciated.
