Participants will be able to...

1. Understand the importance of computer aided design.
2. Frame the ideas into actual prototype development.
3. Able to grab opportunities in machine design.

On 29th December 2022, a **Training on Advance SolidWorks Practices** was started in the Automobile Engineering Department, Theem College of Engineering in collaboration with Shirish Techno solutions. The training had been scheduled from 29th December 2022 to 06th January 2023 (only working days).

The 8 days (40 hours) training program concentrated on various design aspects that are needed during mechanical design. The various practical design examples were discussed through extremely grounded and basic ideas. Numerous examples of computer aided design of mechanical elements like shafts, vessels, welding, etc. were explained with their basics.

The following mentioned topics were discussed during training:

- Advanced assembly making with advanced commands (e.g., advanced mate, mating gear contacts)
- Surfacing
- Sheet Metal Working
- SolidWorks Routing
- Weldments
- Geometric Modelling
- SolidWorks Simulation (assembly animation)
- Simulation interpretation (e.g., results/ report study and interpretation)

During the question hour session, the enthusiastic participants asked several queries and doubts regarding their personal challenges during various design problems.

Around 30 participants were present in the training from Mechanical & Automobile departments. It was a good learning experience for the faculty as well as the students about advanced designing of mechanical elements. The event coordinator of the training was Prof. Shubham V

Report of FDP on "Data Science using Python"

A Five-day Faculty Development Program on "Data Science using Python" was organized by Department of Computer Science and Engineering (AIML) Theem College of Engineering in association with LiveTech India on 2nd Jan 2023 to 6th Jan 2023. Around 30 participants from various branches of Theem College of Engineering registered and participated in the FDP. Inaugural talk was given by Dr. S. Riyazoddin, Principal Theem College of Engineering. The Resource persons Mr. Taral Mehta and Ms. Mamata Choudhary

Introduction: The Python program is a scripting language that can be used for development, coding websites and applications, processing images, scientific data, and more. The program can be found in action on the Google search engine, NASA, Disney, Pinterest, and more. It was built for ease of use and speed and is less complicated than Ruby and other similar object-oriented programming languages. Because it is open-sourced, the program has enjoyed popularity among developers and programmers, and it continues to be the base program for most websites in operation on the internet today.

Course Objectives: The course is designed to provide Basic knowledge of Python. Python programming is intended for software engineers, system analysts, program managers and user support personnel who wish to learn the Python programming language.

Outcome: Problem-solving and programming capability

Hardware Requirements: -

- i3 or above Processor is required
- 4 GB or above RAM is recommended
- Good Internet Connectivity
- OS-Windows 10 is Preferable

Report on 8 Days Vocational Training on Advance Solid Works Practice

Objectives:

1. To encourage the development of creative mechanical design concepts and ideas.
2. Identifying the challenges in designing.
3. To provide information about advanced mechanical engineering design.

Outcomes:

Participate will be able to...

1. Understand the importance of computer aided design.
2. Frame the ideas into actual prototype development.
3. Able to grab oppurtunities in machine design.

On 29th Decemeber 2022, a **Training on Advance SolidWorks Practices** was started in Mechanical Engineering Department, Theem College of Engineering in collaboration with Shirsh Technosolutions. The training had been scheduled from 29th December 2022 to 06th January 2023 (only working days).

The 8 days (40 hours) training program concentrated on various design aspects that are needed during mechanical design. The various practical design examples were discussed through extremely grounded and basic ideas. Numerous examples of computer aided design of mechanical elements like shafts, vessels, welding, etc. were explained with their basics.

The following mentioned topics were discussed during training:

- Advanced assembly making with advanced commands (e.g. advanced mate, mating gear contacts)
- Surfacing
- Sheet Metal Working
- SolidWorks Routing
- Weldments
- Geometric Modelling
- SolidWorks Simulation (assembly animation)
- Simulation interpretation (e.g. results/ report study and interpretation)

During question hour session, the enthusiastic participants asked several queries and doubts regarding their personal challenges during various design problems.

Around 30 participants were present in the training from mechanical & automobile departments. It was a good learning experience for the faculty as well as the students about advanced designing of mechanical elements.. The event coordinator of the training was Prof. Noman Bader and the event convener was Prof. Mohammed Wasim Khan, HOD, Mechanical Engineering Dept. The IIC coordinator was Prof. Mubashir from Computer Engineering department. The program was concluded with Vote of thanks delivered by Prof. Mohammed Wasim Khan.

About NAAC:

National Assessment and Accreditation Council (NAAC) is an autonomous body established by UGC of India to assess and accredit institutions of higher education in the country. The main objective of NAAC is to promote quality assurance in higher education institutions through a process of assessment and accreditation.

NAAC conducts the accreditation process based on a set of predefined criteria which include factors such as curriculum design, teaching-learning process, faculty quality, research and innovation, infrastructure, student support systems, governance and leadership, and community engagement.

NAAC accreditation is highly regarded in the Indian higher education system and is often considered as a benchmark for quality. It helps institutions to identify their strengths and weaknesses and to work towards improving the quality of education and overall performance.

About College:

H. J. Thim Trust established Theem College of Engineering in 2009 at Boisar with an objective of "Success... through Quality Education" for the development of youths who plays a decisive role in shaping the destinies of nation. The institute's serene and tranquil surroundings create an appropriate atmosphere to develop students' overall growth both in academics and ethics.

Theem College of Engineering is approved by AICTE, Government of Maharashtra and DTE, and affiliated to University of Mumbai. The institute is awarded with B+ grade by NAAC. The institute is a remote center of ITB-NMIEICT (Ministry of Education, Govt.

of India). The institute is emerged as the only

Premier Engineering College in Boisar with an overall intake of 660 students in the following graduate engineering programmes- Computer, Information Technology, Mechanical, Civil, Computer Science Engineering (AI & ML), Automobile, Electrical Engineering

The institute's well-maintained infrastructure, rich academic excellence and teaching-learning ecosystem steer students to achieve their engineering skills and career goals. To enhance multi-tasking growth, the institute equally focuses on co-curricular and extra-curricular activities which yielded university rank holders and winners of various technical and sports events.

IQAC:

Internal Quality Assurance Cell (IQAC) is a part of the institution's system & work towards realization of the goals of quality enhancement & sustenance. The prime task of the IQAC is to develop a system for conscious, consistent & catalytic improvement in the overall performance of institutions. As a part of improving quality of research and education, the IQAC is going to organize this national level workshop sponsored by NAAC.

Vision

To become a Centre of Excellence in Technical and Professional Education.

Mission

1. To commit for high standards in technical and professional education.
2. To impart quality professional education through ICT initiatives and project-based learning.
3. To nurture technocrats and professionals with ethics and human values

About Workshop:

Quality assurance in higher educational institutes is a crucial aspect of ensuring that students receive a high-quality education that meets the required standards. Open Educational Resources (OER) can play a significant role in enhancing the quality of education in higher educational institutes can be used for curriculum design and development, course material development, quality assurance in teaching, assessment and evaluation, and continuous improvement. By using OER, higher educational institutes can ensure that students receive a high-quality education that meets the required standards.

As the educational spectrum of the country has witnessed a transformation with respect to the pandemic situation, the robust paradigm shift towards online education, enhancing use of software, introduction of modern technologies in teaching learning process have become the need of hour. The pedagogical fraternity needs to be committed to engage students in active, collaborative and technology-based learning methodologies. The use of open educational resources helps faculty and students to have access to technologies, books and various other teaching materials that they normally would not be able to afford.

The criterion of "Research and innovation" is one of the major challenges of quality assurance cell of higher educational institutions. Basic objective of this proposed workshop is to motivate faculty to spread knowledge and information about research methods through use of various open-source software, such as latex, scriab, linux etc. It is planned to provide hands on practice for the same during this workshop.

A Report on International Conference

Trends and Herald in Engineering Excellence and Metamorphosis (THEEM-2023)

To cope with the new trends and the rate of transformation in the arena of engineering and technology, Theem College of Engineering (Theem COE) have initiated a step ahead to conduct International Conferences in the campus under the name of THEEM 2023 (Trends and Herald in Engineering Excellence and Metamorphosis).

Theem COE conducted the first National Conference THEEM-2020 in the year 2020 which had boosted us towards the next conference THEEM-2022 which was scheduled on 10 and 11 June 2022. This year THEEM-2023 was scheduled on 28th and 29th April 2023. The conference received more than 150 research papers of various areas of specialization from UG, PG and PhD students as well as the academicians out of which 101 papers were selected by the publication committee and accepted for publication in 95 papers in preceding by Trends and Herald in Engineering Excellence and Metamorphosis and 6 papers are under review in UGC approved journal.

Day-01 Program

The conference started with an inaugural function (session-01) on 28 April 2023 at 10.00 a.m. At first, welcome address with Holy Quran recitation happened, after that Dr. N. K.
