Report on 8 Days Vocational Training on Advance Solid Works Practice

Objectives:

- To encourage the development of creative mechanical design concepts and ideas.
- 2. Identifying the challenges in designing.
- 3. To provide information about advanced mechanical engineering design.

Outcomes:

Participate will be able to ...

- 1. Understand the importance of computer aided design.
- 2. Frame the ideas into actual prototype development.
- 3. Able to grab oppurtunities in machine design.

On 29th December 2022, a Training on Advance SolidWorks Practices was started in Mechanical Engineering Department, Theem College of Engineering in collaboration with Shirsh Technosolutions. The training had been scheduled from 29th December 2022 to 06th January 2023 (only working days).

The 8 days (40 hours) training program concentrated on various design aspects that are needed during mechanical design. The various practical design examples were discussed through extremely grounded and basic ideas. Numerous examples of computer aided design of mechanical elements like shafts, vessels, welding, etc. were explained with their basics.

The following mentioned topics were discussed during training:

- Advanced assembly making with advanced commands (e.g. advanced mate, mating gear contacts)
- Surfacing
- Sheet Metal Working
- Solid Works Routing
- Weldments
- Geometrie Modelling
- SolidWorks Simulation (assembly animation)
- Simulation interpretation (e.g. results/ report study and interpretation)

During question hour session, the enthusiastic participants asked several queries and doubts regarding their personal challenges during various design problems.

Around 30 participants were present in the training from mechanical & automobile departments. It was a good learning experience for the faculty as well as the students about advanced designing of mechanical elements.. The event coordinator of the training was Prof. Noman Bader and the event convener was Prof. Mohammed Wasim Khan, HOD, Mechanical Engineering Dept. The IIC coordinator was Prof. Mubashir from Computer Engineering department. The program was concluded with Vote of thanks delivered by Prof. Mohammed Wasim Khan.

Report on Soft-Skill Training Program for the academic year 2021-22

At Theem College of Engineering, huge emphasis is laid upon the all-round development of students thereby; preparing them to face challenges of life post they complete studies at college. With the ever-increasing competition, quintessential component such as soft skills are of paramount importance for a successful career of pupils who wish to succeed in their career and have better job prospects. It is now well-established that many students who otherwise perform well in the traditional examination may not be very sound in their communication skills. Hence, the sole objective of Soft-Skill training program is to assist students in inculcating soft skills and developing their personalities, to empower and raise their awareness of the dynamic milieu.

The aptitude training is absolute vital for students, as the first round conducted by most of the reputed companies is an aptitude test, to test their quantitative and logical abilities. hence, it is a crucial round to qualify for further rounds of interview. the students are imparted in-depth knowledge on the topics such as quantitative aptitude, data interpretation, reasoning and verbal ability & reading comprehension. regular sessions are conducted on mock aptitude tests, psychometric tests, group discussions, resume writing, technical tests, interview skills, grooming, body language so on and so forth.

This year due to the ongoing pandemic situation, training and placement office decided to conduct the Soft-Skill Training online. This training was three weeks long conducted for students of batch 2022-23 of Theem College of Engineering. The online training was conducted on Google Meet platform with around 172 students participating from branches of Civil, Mechanical, Automobile, Computer, IT, EXTC and Electrical engineering departments.

We firmly believe that the knowledge shared in this training would help easing the transition of the college students into the workspace and prepare them for demanding situations that they may encounter in their span of career. Soft skills and aptitude training helps our students to augment their employability and potential and face challenges of the present times.

The online training included sessions on group discussion, personal interview, resume writing and general aptitude. Students also joined the google classroom that was created for aptitude test to ask their queries and get the doubts solved. The schedule of the event was as follows:

Report of One Week Online Student Development Programme

Recent Trends in Artificial Intelligence and Machine Learning (AT &ML) & its Applications

Theem College of Engineering, Boisar organized an online National Level Student Development Programme(SDP) from 05th to 9th July 2021on "Recent Trends in Artificial Intelligence and Machine Learning & its Applications". This was a five day SDP in which various related subtopics were discussed in detail by the eminent faculty members from National Institute of Technology, Warangal and some Industrial Experts from the domain. It provided a very beneficial academic environment and very good exposure to the use of Techniques and Technology of AI & ML. The SDP was well-organized by the coordinators Dr. Najmuddin Aamer, HOD, Department of Computer Engineering and Prof. Syed Tanzeem, HOD, Department of IT and was experienced by over 72 participants from different Engineering Colleges all over India.

The SDP was started on **05th July 2021** with a welcome address by Dr. Aqueel A Shah, Principal, Dr. N. K. Rana, Director, & Dr. Suresh Shan, Chairman of CSI Mumbai Chapter addressed the gathering and presented his views on the need of conducting this workshop and motivated them with a special emphasis on **Recent Trends in AI & ML** which is much of the time devoted to real time applications.

The Day-1hada technical session on the topic of "Introduction to Data Science and Statistical Methods, Regression Models" by Prof. P Radha Krishna, Computer Engg. Dept. NIT, Warangal. He presented an introduction to Data Science, AI & ML and various statistical methods available for the data analysis and its applications to real time problems. This session provided an insight on the various challenges and how to overcome it, which were associated with many data scientists. Overall, it was very much beneficial to the participants.

The Day-2 had the session on "Introduction to Machine Learning, Supervised, Unsupervised Learning Techniques and Decision trees" by Prof. RBV Subramanyam, Chairman, E & ICT Dept. NIT, Warangal. The audiences were mesmerized with the excellent style of black board teaching, the teachers starting from the basics of Machine Learning and going deep into the concept of ML, by giving examples on the real time basis and its solution, using the concept of Decision Tree. A various Supervised and Unsupervised Learning Techniques and taking the different dataset were discussed that made audience easy to remember the concepts very well. It was the one of the best sessions that the participants had through the 5-days of the SDP.

The Day-3 started with the presentation and hands-on session on "R-programming" which was conducted by Dr. T Rama Krishnudu, Computer Engg. Dept. NIT, Warangal. The session started with how to install and configure the R-Programming Studio into the windows and Linux operating systems. The session also had the exposure to the basic concepts on use of different data types used in R-Programming, use of variables, representation of different data types and implementation of real time problems on the R-programming environment. He presented what all the aspects we need to follow while starting as a programming. He also explained how best we can utilize the freely available libraries and use it our projects.

The Day-4 had the session on "Feature Representation, Ensemble Methods, Real Time Applications" by Dr M. Srinivas, Computer Engg. Dept. NIT, Warangal. At the start of the session, he explained how to start with finding the real time problems and get the research gaps and ways and means to solve the problems which could be implemented using the AI & ML techniques available. Later on, he presented the various techniques on representation of features, computer representation, feature reduction techniques and solving the real time problems using the algorithms and optimization techniques of AI & ML.

The Day-5 had two more sessions in which the first session was conducted by **Dr. Ijjina Earnest Paul**, NIT Warangal who presented audience various algorithms used for Machine Vision and its implementation, and analysis by using different case studies which he currently pursues at NIT, Warangal. In the second session, **Mr. Ali Mustafa**, Student Program Manager, Postman API, India presented the Application of AI & ML for API Development and demonstrated the use of AI and ML for developing API for various search by taking different image searches and finding it on the World Wide Web (www).

A valedictory session was arranged online in the presence of chief Guest, **Dr. J.W. Bakal**, President IETE, India, the Principal, the Director and the Trustee. Dr. J.W. Bakal emphasized on improving the quality of Teaching-Learning Process and delivering the concepts in a lucid manner to the students. He also highlighted on the need to get involved into taking up research activities at different levels. All others motivated the participants to utilize the learned things to deliver their lectures with full of confidence and utilize it for the mankind by means of its implementation to the real time problems. The participants expressed their pleasure on learning the techniques, tools, concepts, algorithms which were available but not much known to them. Now, they explored and learned those things. Some participants gave their feedback and expressed their overwhelming response to attend these kinds of workshops in near future.

The Management appreciated the organizing team members Dr. Najmuddin Aamer, Prof. Syed Tanzeem, Prof. Rahatullah Khan, Prof. Prashant Rathod, Prof. Sneha Sankhe, Prof. Rajesh Patil,

Title: Finite Element Analysis for Engineering Applications using ANSYS Software

Name of Resource Person: Mr. Ashish Vajir

Description:

1. Objective of Activity:

To enrich and manifest students the CAE domain activities of real engineering industries. Through this training course students will come across the applicability of FEA methods and different types of the formulation procedures of real world engineering problems.

2. Intended Audience:

Students were exposed to advanced level analysis techniques of ANSYS software beyond their academics syllabus. There was an improvement in their skills of software analysis and prediction of desirable output of model under applied working conditions. From now on students can easily work in ANSYS software, they were promoted in the basics and applications of Finite Element Methods to solve different types of engineering problems. They have gone through various types of modes of analysis performed on engineering models and some real world practical applications. They became capable to perform analysis and get approximate results, mechanical properties. They were also benefitted in defining extended limits of applied working conditions of different engineering specimens, engineering mechanisms and machine components. Also they got exposure of using ANSYS software for automobile designing and testing of different components like engine, chassis and gearbox etc.

Dear Sir.

We are very glad to thank you for presenting yourself in the Training Program of Finite Element Analysis in ANSYS and being as a Trainer to enrich our students in the programme. Your speech enlightened our faculties and students on applications of Finite Element Methods and different types of solutions to the engineering problems of FEA in ANSYS.

We always expect the same kind of coordination and cooperation in future.

Thanking you

With best regards

Yours faithfully,

Type of Activity: Training

Title: Finite Element Analysis for Engineering Applications using ANSYS Software

Name of Resource Person: Mr. Ashish Vajir

Description:

1. Objective of Activity:

To enrich and manifest students the CAE domain activities of real engineering industries. Through this training course students will come across the applicability of the method and different types of the formulation procedures of real world engineering problems.

2. Intended Audience:

Students were exposed to advanced level analysis techniques of ANSYS software beyond their academics syllabus. Improvement in their skills of software analysis and prediction of desirable output of model under applied working conditions. From now on students can easily work in ANSYS software, they were promoted in the basics and applications of Finite Element Methods to solve different types of engineering problems. They have gone through various types of modes of analysis performed on engineering models and some real world practical applications. They became capable to perform analysis and get approximate results, mechanical properties. They were also benefitted in defining extended limits of applied working conditions of different engineering specimens, engineering mechanisms and machine components. Also they got exposure of using ANSYS software for automobile designing and testing of different components as like engine, chassis and gearbox etc.
