Sanitation and Hygiene Committee

The Theem College of engineering is a mini-community where students come for learning. The students have the right to basic amenities, whereas the college must provide essential amenities such as clean and functional toilets, safe drinking water, clean surroundings and necessary information on sanitation and hygiene. Consequently, inculcation of Swachh habits is a responsibility of the educational institutions. Manner inculcation is conceivable through experience and practice.

The basic principles of sanitation and hygiene include accessible infrastructures to suit different types of needs. Specific approaches and sanitation management practices need to be adhered to.

The object of the Sanitation and Hygiene Committee are as follows:

1. To create an enabling environment that secures human dignity, safety, health and overall Well-being.
2. To increase campus awareness about good sanitation practices supported by enabling and reinforcing factors that will lead to desirable campus changes.
3. To combine sanitation and hygiene education and practical implementation of these aspects in our college.

The committee has decided the following sanitation and hygiene initiatives and the methodologies adopted would have long term benefits:

1. Physical Appearance: The committee will work towards visual appearance of campus, cleanliness of admin block, clean pathways, visibility of cleaning staff, and well maintained lawns and gardens.
2. Overall Ambience of Washroom Facilities: To ensure sanitation, the committee will inspect the toilets at the principal office, staffroom, administration block, girls' common room (GCR) and academic block from time to time to keep it clean, neat and odor-free.
3. Gender Balance of Toilets: TCE is a co-ed college, and it has required toilet facilities for boys and girls with water assuming a ratio of 60:40 for males and females.
4. Disabled-Friendly Toilets: The college has separate toilets for differently-abled faculty and students along with ramps and suitable toilets. The committee has decided to put signboards and information on the availability of such toilets.
5. Dedicated Staff/ Teams for Hygiene Maintenance and Inspection. The committee will put respective signboards on the availability of sanitation facilities. Also, adequate teams will be formed for hygiene maintenance and inspection.
6. Canteen and Kitchen Hygiene: The committee would orient the canteen contractor to maintain hygiene standards of chefs, cooks, cook helpers, servers, washing staff and dining halls daily.

Our Expertise:

What Do we Do?

Campus Credential (CC) is a forerunner in the education and training sector since its inception. CC has successfully trained more than 16,000 students each year with a success rate of more than 90%. The philosophy of the company has always been student-centric rather than profit-centric, which makes CC the ideal choice for students.

Campus Credential has trained students for Campus Recruitment Training (CRT) in institutes all over Mumbai and Maharashtra. About 90% of the engineering colleges in Mumbai, including NMIMS, Saboo Siddik, Thakur, RAIT, Amity University, KJ Somaiya, Rajiv Gandhi, St. Francis, and Pune Campus including D.Y.PATIL (Akrudi Campus), PCCOE Pune many more are associated with CC as their training partner. Course Objective:

- ✓ Skill enhancement: Ensuring students receive the best skill-sets to have a better transition from campus to corporate.
- ✓ Employability skills: To increase their employability value to ensure success in their future endeavours.
- ✓ Skilled Professionals: To help students not just pass out as graduate but skilled professionals.

Need for the Course:

While only 8% of youth is unemployed, 53% have some kind of skill deprivation. This becomes critical as 90% of jobs in India are skill based. Youth employability is a bigger crisis than unemployment as poor-quality skills or education show up in low incomes rather than unemployment. 58% of graduates make less than Rs. 75,000 per year. (Source: <https://timesofindia.indiatimes.com/business/india-business/Indian-youth-are-simply-unemployable-Report/articleshow/2526720.cms>).

The above study clearly bring to the forefront the need of skills enhancement in the youth of the nation today. Gone are the days when securing good marks is all you needed to get a good job. Corporates have understood that although the students may have gained some subject knowledge, but the application part along with some basic soft skills are completely missing in these students. Hence, corporates have come up with proper recruitment processes that will filter out the candidates that possess the skill-sets the company requires. They are checking nothing but the employability of the students, which sadly it is quite low in our nation.

Without proper training and education regarding these skills, the students may face higher outcomes of rejection than what we hope for. This may also result in the students settling for jobs that offer subpar profiles and lower incomes. Our students have a right to better jobs and basic skill-sets which can be provided to them through these courses.

These skill-sets should not be the barrier between them and a potential job opportunity. Employability skills is the need of the hour and we should aim to enhance it with these courses.

Our Objective:

Our objective is to ensure our youth are employable. To make the students employable, we have to impart certain skills to the students that the corporates require. The subject knowledge is very efficiently provided by the colleges and universities they study in, but the other skills like decision making, time management, people management, negotiation skills, etc. are something that is not taught in a classroom and so our students are lacking in these basic skills.

According the latest LinkedIn reports, 57% of senior leaders today say that soft skills are more important than hard skills for their business today. The skills that the companies are looking for most are Creativity, Persuasion & Negotiation skills, Teamwork, Change Management & Adaptability, Time management, Analytical Reasoning & Decision Making, People Management, Sales and Corporate Communications. (Source: <https://learning.linkedin.com/blog/top-skills/the-skills-companies-need-most-in-2019--and-how-to-learn-them>)

Our courses have been designed based on these latest inputs. The course design is created to inculcate these skills that the corporates need. Student betterment and employability are the main objectives of these courses. We hope to create not just graduates but skilled graduates who can grab the best opportunities.

Flutter

As a mobile developer, what do you expect from your application development?

Obviously

- Lot of options for beautiful design.
- Butter smooth animations.
- Great Performance.
- Also you would like to target as many platforms as possible from your single code base.
- Prototyping features in less time.

If you are looking for an SDK that can do all these, Flutter is the best option.

Following are some of the features of Flutter.

- Flutter is developed by Google.
- Free and Open Source.
- Flutter is happy to work with your existing code in Java, Swift, ObjC etc.
- Flutter makes single code base possible for both IOS and Android applications.
- Flutter helps build high-quality native interfaces to Android and IOS.
- With Flutter, time required for Application Development is relatively less, at the same time not compromising on performance or design.
- Hot Reload makes your Application Development fast than ever.
- Flutter has built-in Material Design (for Android) and Cupertino (for iOS).
- Flutter is a reactive framework like React from Facebook.

Flutter Development IDEs

You can develop Flutter application using any of the following IDEs.

- Android Studio
- IntelliJ IDEA
- Visual Studio Code
- Xcode

Flutter uses Dart programming language for developing applications. To learn Dart follow [Dart Tutorial](#).

Flutter on Different Platforms

Flutter adopts the physics and behavior of applications corresponding to the target platform. Scroll behavior, navigation, icons, fonts are some of those that Flutter shows differently on different platforms like Android and IOS.

Flutter for Beginners

You can start right away to deliver fast and modern native apps.

Flutter for Existing Mobile Application Developers

You can integrate Flutter with your existing code.

Type of Activity: Training

Title: Finite Element Analysis for Engineering Applications using ANSYS Software

Name of Resource Person: Mr. Ashish Vajir

Description:

1. Objective of Activity:

To enrich and manifest students the CAE domain activities of real engineering industries. Through this training course students will come across the applicability of FEA methods and different types of the formulation procedures of real world engineering problems.

2. Intended Audience:

Students were exposed to advanced level analysis techniques of ANSYS software beyond their academics syllabus. There was an improvement in their skills of software analysis and prediction of desirable output of model under applied working conditions. From now on students can easily work in ANSYS software, they were promoted in the basics and applications of Finite Element Methods to solve different types of engineering problems. They have gone through various types of modes of analysis performed on engineering models and some real world practical applications. They became capable to perform analysis and get approximate results, mechanical properties. They were also benefitted in defining extended limits of applied working conditions of different engineering specimens, engineering mechanisms and machine components. Also they got exposure of using ANSYS software for automobile designing and testing of different components like engine, chassis and gearbox etc.
