IQAC Report on quality Initiatives

IQAC Vision

To ensure realistic quality culture aiming holistic academic excellence at the institutional level.

IQAC Mission

1. To develop a sustained echo-system for conscious, consistent & catalytic improvement in the academic and administrative performance of an institution.
2. To be the driving force for enhancing quality by removing deficiencies and ushering modern methods.
3. To Act as a nodal centre of the Institution for initiating and directing quality-related activities, including dissemination of best practices.

IQAC Objectives

- To stimulate the academic environment for promotion of quality of teaching-learning and research
- To encourage self-evaluation, accountability and innovations
- To undertake quality-related research studies, consultancy and training programs
- To collaborate with other stakeholders of higher education for quality evaluation, promotion and sustenance.
- To inculcate a Value System among Students
- To gather and analyze feedback responses from students, parents and other stakeholders.

Significant Contribution

1. Academic Excellence

a) Implementation of outcome based education

To implement outcome based education IQAC prepared a booklet Curriculum Implementation and Assessment Report (CIAR) to record time table, lesson plan, attendance, execution of practical, internal and external assessment marks, termwork marks, above all CO-PO mapping and attainment calculation.

The process of attainment of Programme Outcomes (POs), Programme Specific Outcomes (PSOs) and Course Outcomes (COs) starts from the first year and continues up to the final year of four-year engineering programmes. The COs, as given with the syllabus of Mumbai University, are associated with **Bloom's Taxonomy**. Mapping of COs to POs and PSOs is done in CO-PO matrix by examining curriculum and programme outcomes with three levels: Low (level 1), Moderate (level 2), and High (level 3). Mapping levels decide the contribution of the course to attain programme outcomes. The expected target/mapping level of course outcome is set by course teachers at the beginning of the semester. The attainment of COs is correlated with the measure of appropriate POs/PSOs.

Here is an example of mapping of the course (**Power System Planning and Reliability**) EEDO8021:

Course Outcomes :		
At the end of the course student will be able to:	PO/PSO	Bloom Level
EEDO8021.CO1 To Explain the basic modelling of Power system components for reliability evaluation and planning.	PO1 / PO2 PSO1 / PSO2 / PSO3	Understanding / Applying
EEDO8021.CO2 To describe load forecasting models for short term and long-term power system planning.	PO1 / PO2 PSO1 / PSO2 / PSO3	Understanding / Applying
EEDO8021.CO3 To describe the methodologies to solve generation system reliability calculation and generation planning.	PO1 / PO2 PSO1 / PSO2 / PSO3	Analyzing / Understanding
EEDO8021.CO4 To describe how to calculate reliability indices for combined generation and transmission systems.	PO1 / PO2 PSO1 / PSO2 / PSO3	Understanding / Analyzing
EEDO8021.CO5 To carry out planning and reliability for distribution system.	PO1 / PO2 PSO1 / PSO2 / PSO3	Understanding / Applying

Mapping of CO with PO : (Target Level)

	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3	Correlation

The assessment of course outcomes comprises the evaluation of student performance by individual faculty in his/her course as per the guidelines of University of Mumbai. The POs and PSOs are assessed with the help of course outcomes of the relevant courses. The

assessment tools and processes are used for the attainment of each course outcome through **direct and indirect methods.**

Direct Method:

The method of assessment of COs for direct methods is provided through direct examination of students' knowledge or skills against measurable course outcomes. The performance of students in mid and end-term tests, assignments, tutorials, laboratories, quiz, projects, as well as oral/practical and semester theory examinations is used to compute the level of attainment. Each question in mid and end-term tests, assignments and quiz is tagged to the corresponding COs. Rubrics are formulated for assessment of laboratory performance, assignment, project activities and grades/marks are assigned. Percentage of marks of overall students is computed to decide the attainment level.

For example,

Assessment Tools :

Course Outcomes	Assessment Tool Direct	Maximum Marks	Assessment Tool Indirect
CO1	UT-1	5	Course Exit Survey
	Assignment-1	5	
	Quiz-1	5	
CO2	UT-1	10	
	Assignment-1	5	
	Quiz-1	5	
CO3	UT-1	5	
	Assignment-2	10	
	Quiz-2	10	
CO4	UT-2	10	
	Assignment-3	10	
	Quiz-3	10	
CO5	UT-2	5	
	Assignment-4	10	
	Quiz-4	10	

Average attainment in direct method = University examination (60%) + Internal assessment (40%)

Indirect Method: The feedback is collected through on-line/off-line surveys from students at the end of each course (Course Exit Survey) and programme (Programme Exit Survey).

Overall Attainment = Direct (80%) + Indirect (20%)

Attainment of each PO and PSO for a single subject is obtained by the mapping of POs and COs.

Attainment of the subject Power System Planning and Reliability (EEDO8021):

Attainment of Course Outcomes :

Course Outcomes	Direct Method														Indirect Method	CO Attainment on scale of 3 (0.8Y1 + 0.2Y2)

b) Identification of the slow learners and to improve their learning ability by remedial lectures

Slow learners and students who are not proficient in English language are identified at the entry level by diagnostic tests and HS, CET results. For second year onwards students, analyzed by their previous year university examination results and further based on midterm and end term test performance are decided to be slow learners.

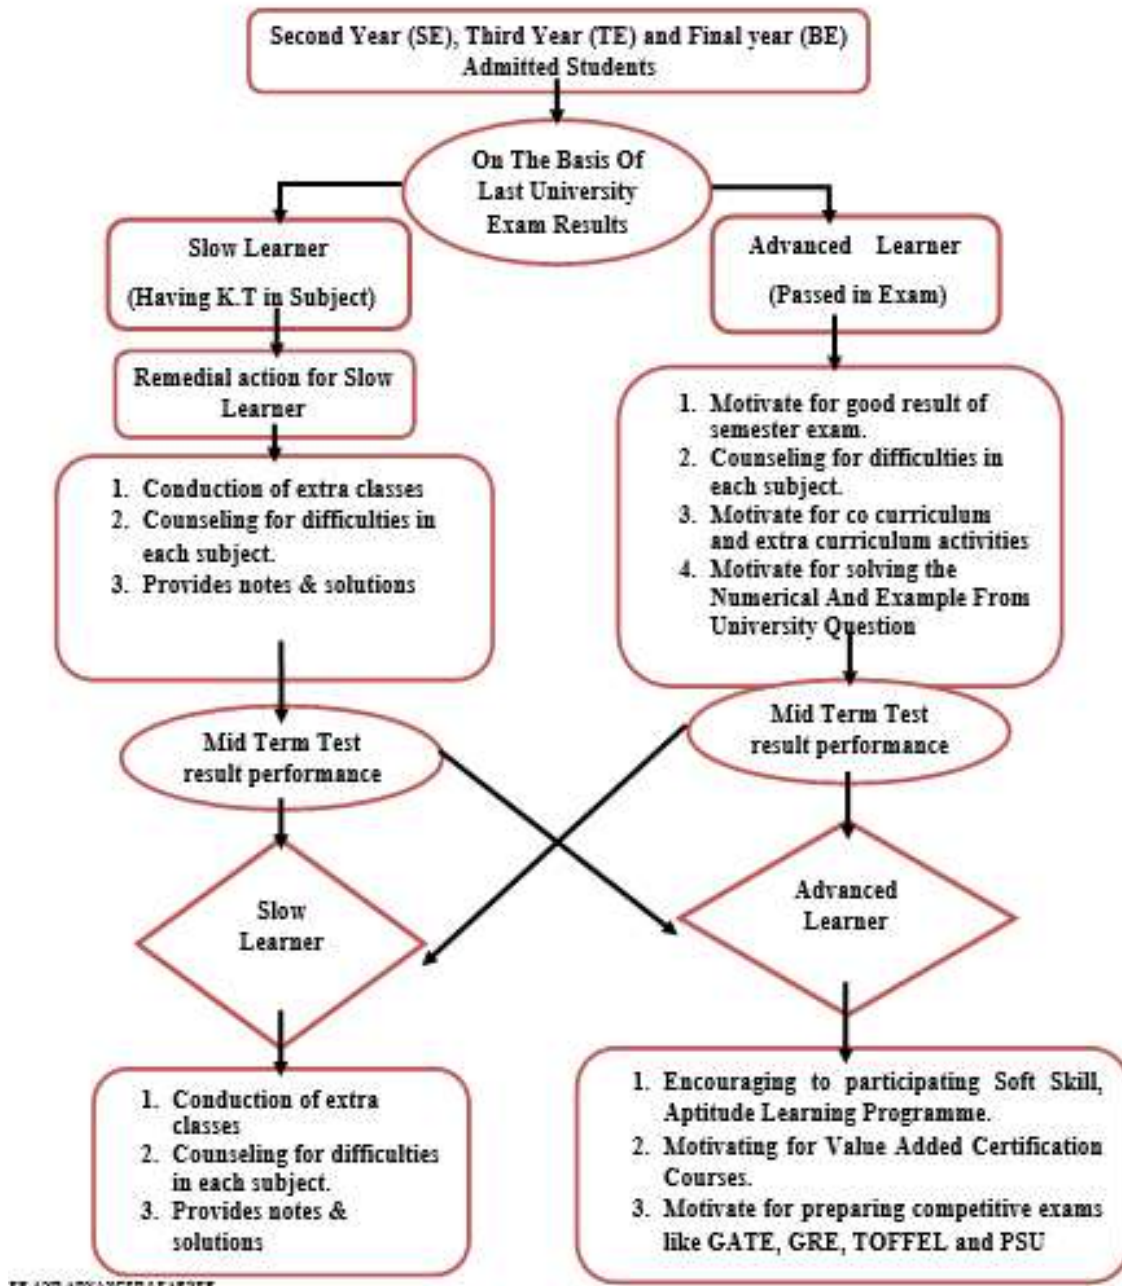

The flow chart of the process is given below.

Mechanism of Identifying and Improving Slow Learner and Advanced Learner

a) For First Year

b)For Higher Years

In this process at first the slow learners are identified. They are then motivated to improve their learning ability by different processes. Different bridge courses, additional lectures and remedial lectures are conducted to improve their learning ability. Their academic performances are also communicated and discussed with their parents in parents-teacher meet. The process continues up to final year.

For example after identifying the slow learners in first year, remedial lectures were taken to improve their performance. The time table is given here.

Action taken for slow learners for the Academic Years: 2022-23, Semester I

Date	Name of subject	Time	Faculty

c) Conduction of Academic Audit

The Internal Academic Monitoring Committee (IAMC) regularly conducts meetings to check and review academic progress and suggest pedagogical methods to improve the students' learning. Course files with records of all students' academic progress are duly maintained. Here is the format for academic audit conducted by IAMC for each department.

Academic and Administrative Audit for A.Y. 2022-2023

d) Building a robust Mentor-mentee system

Each newly admitted student is assigned a teacher mentor to keep an eye on his academic progress. Mentors keep regular interactions with their mentees to be aware of their progress and any kind of problems they are facing. If required the higher authorities are also involved in solving the problems. Weekly mentor-mentee meetings are assigned in the time table. Mentors personally take interest in the mentee's professional and personal well-being, so that each student may follow his dream, achieve their goal and grow up as a complete human being.

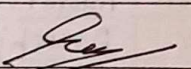

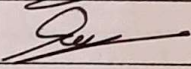

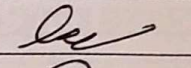

For example,

Mentor mentee distribution 2022-23

Name of Mentor	No. of allotted Mentees	Class Name
Prof. Snehal Patil	18	FE (IT)
Prof. Apeksha Bari	26	FE (AIML, Auto)
Prof. Ayaz Bagwan	10	FE (comp)
Prof. Arbiya Shaikh	22	FE (IT)
Prof. Abid Maniyar	5	FE (Comp)
Prof. Sajid Shaikh	24	FE (AIML)
Prof. Priyanka Patil	10	FE(Comp)
Prof. Shalu Singh	31	FE (AIML, Comp)
Prof.A.Kazi	5	FE(Mech)
Prof.Zahir Khan	19	FE(Comp)
Prof. Twinkle Raut	18	FE(IT)

Mentors maintain a booklet for each mentee where their information and progress are documented.

Mentor's Comments:		
SEM I	Learning attitude	Low
	Academic performances	Need improvement
SEM II	Learning attitude	Low
	Academic performances	Need improvement.
Remedies suggested:		
Discussions with Mentee		Sign of Mentee
1. make timetable of study.		
2. Be attentive, Be regular		
3. maintain discipline.		
4. improve attendance		

Each week mentors discuss the academic and personal progress with the mentee, specially slow learners, and suggest appropriate action.

e) **Introducing innovative program and courses**

To cope with the current world and new technology, a new program Artificial Intelligence and Machine Learning has been introduced. A honours course “data Science” was introduced on 2022-2023 and 26 students of 3rd year opted for the course. Students have participated in and completed a number of Value-added courses,

List of Value-added Courses:

f) Adaptation of the measures suggested by feedbacks from various stakeholders

A robust feedback mechanism is in place in the institute. Feedbacks are collected to review and improve academic and administrative process on the following aspects

- a) Student, Parents, alumni and employees for program improvement
- b) Students' feedback for improvement of teaching learning process
- c) Course Exit Survey and Program Feedback

The feedback data collected are analyzed by IQAC. The aspects pointed out by the stakeholders are considered and appropriate actions are taken to improve the teaching learning process.

For example, here is the action taken report from 2022-23 after analysing the feedback from various stakeholders:

Action Taken Report (A.Y. 2022-23)

Sr. No	Stakeholders	Feedback	Action Taken
1	Students	Syllabus should include practical based approach and more weightage must be given to projects.	Students were motivated to develop mini projects in individual subjects and were also guided regarding advanced technologies by conducting SDPs.
		Internship must be encouraged.	Students were encouraged to take up internships during vacations and also signed MoUs with EdTech firms for the same.
2	Teachers	More importance to be given on innovative methods & current developments.	To correlate the syllabus with industry requirements, faculties attended several FDPs on recent technologies to impart the learning.
3	Alumni	Industry oriented knowledge and learning scheme should be implemented.	Add-on courses or SDPs conducted to impart industry-oriented learning.
		Placement Activity needs to be improved.	Working on Training & Placement of Students by collaborating with industries. Also conducted Campus recruitment Training session.
4	Employer	Candidates should be trained as per current industry requirements.	Industrial visits were organized and students were motivated to take up internship to explore industry environment.
		Candidate's soft skills and technical knowledge should be enhanced.	Campus recruitment Training sessions were conducted.

2. Holistic Student Development

- a) **Organization of programmes for holistic development of students like Universal Human Values (UHV), soft-skill training, personality development, career guidance etc.**

Various workshops and seminars on subjects like UHV, Soft-skill development, Yoga, Career counselling, Self-defence Communal harmony, Cyber Security Awareness, Stress Management etc are arranged to ensure the students' holistic growth. In the subject Professional Communication and Ethics they are taught about morals and ethos about to adopt in their life.

For the first year induction programme, seminars on all these subjects are arranged for.

Here is the schedule of the program for the year 2022-2023

FE Induction Schedule 2022-23								
Date	Time/ Day	Venue	Session 1		01.00pm-2.00pm	Session 2

b) Encourage the students for different co curricular and extracurricular activities

The students are encouraged to participate in different extracurricular activities in the annual festival Jashne-e-Theem. Kalanjali, Promethean and Athlon are the three platforms under the umbrella of Jashne-e-Theem for students to showcase their talent in different fields like cultural, technical and sports. Also co curricular activities like project exhibition, paper presentation, taking part in AVISKAR etc are encouraged.

The events conducted at Jashne-e-Theem:

KALANJALI	PROMETHEAN	ATHLON

Soft Skill & personality development program

IQAC planned to conduct a series of conferences “Trends n Herald in Engineering Excellence and Metamorphosis” (THEEM) from 2019. So far two national and one international conferences have been successfully organized. An International Conference on Humanizing Work and Work Environment (HWWE 2020) has also been successfully conducted in online mode during lockdown and 60 papers have been published.

A special session for research papers from industry personnel was arranged in THEEM-2023 conference. Four papers were selected for oral presentation. Various eminent personalities from industry attended the session. The selected papers are:

Paper ID	Paper Title	Author	Industry Name
ME20	Recent Development In Metallurgy & Manufacturing	Mukesh Pathak	Viraj Profiles Private Limited Tarapur
ME21	POWER QUALITY	Himanshu Nimawat	Viraj Profiles Private Limited Tarapur
ME22	POLLUTION CONTROL SYSTEM OF INDUCTION FURNACE UNIT	Mr. C R Dad	Viraj Profiles Private Limited Tarapur
ME23	Application of Industry 4.0 technologies in the Steel Manufacturing context	Amardeep Singh, Suraj Ghosh	JSW SCPL Boisar

Best Paper Award presentation in THEEM-20

A national workshop titled “Quality Assurance in Higher Educational Institutes by using Open Educational Resources” was held at Theem College of Engineering, Boisar on 9th and 10th June, 2023. Over 100 teachers from higher-educational institutes from all over India, both offline and online, participated in the event which was sponsored by the National Assessment and Accreditation Council (NAAC). Various open educational software like Latex, Scilab and Linux were presented by eminent teachers, and hands-on practice was delivered in the afternoon session.

he faculty and students attended Total 159 numbers of FDPs and SDPs to improve the quality of learning and teaching.

The list of total Number of Teaching and Non-teaching Staff Participating in Faculty Development Programs, Management Development Programs (MDPs) Professional Development/administrative Training programmes as follows:

b) Inspire students to progress further towards research through Project Based Learning (PBL). PBL is successfully implemented from the first year itself. Theem Makers Vector - the state-of-the art laboratory for Project Based Learning is often used by students to carry on projects. Fully equipped laboratories with computers having open source and updated software are used for project work regularly. Each and every department assigns students with mini projects, arranges for project competition to support project-based learning. The institute arranges project fairs to serve as platforms for showcasing innovative projects by our students. Let us take an example for Mechanical department,

- List of the following mini projects from Mechanical and Electrical students have participated in Mini project Exhibition April 2019.

Sr. No	Title of Mini project	Branch
4	Fire Fighting Robot	Mechanical
5	Two way Visitor Counter	Mechanical
6	Density Based Traffic Signal Control	Electrical
7	Water Level Indicator	Mechanical
8	RFID Based Attendance System	Electrical
9	Automatic Light Control	Electrical
10	Arduino Based Date & Time Control	Electrical
11	Hear Rate Monitor	Electrical
12	Fingerprint Door	Mechanical
13	Heart Beat Sensing Device	Mechanical
14	Arduino Based Distance Measurement System	Mechanical
15	Electronic Voting Machine By Using Arduino	Electrical
16	Smart Dust bin	Mechanical
17	Automatic Timer	Mechanical
18	Object Counter	Mechanical
19	Antitheft Alarm System	Electrical
20	Scissor Lift Table	Mechanical
21	Watts Mechanism	Mechanical

Invites you to participate in

Mini Project Exhibition 2019

Organized by
DEPARTMENT OF MECHANICAL ENGINEERING

Venue:
A-327, Quality Training Centre, 3rd Floor

on
10th April, 2019

Outcomes and Achievement:

Mechanical Engineering and Electrical Engineering Mini Projects:

1. **“Rocker Boogie Mechanism”** from Mechanical students has won the mini project exhibition competition 2019.
2. **“Wall Climbing Robot”** from Mechanical students has secured runner up–I in the competition.
3. **“Voice Controlled Car”** from Electrical students has secured runner up–II in the competition.

c) Motivate the students to publish their work in conferences and in Journals.

The students are motivated to convert their final year project into research papers and to present in conferences. Some of the selected papers have been published in journals too. Total 102 papers were published in 2021-22 in THEEM-22, total 73 no. of papers were published in IJAIR in Theem-2020. In THEEM-2023 101 no of papers were selected for oral presentation and were published in the proceeding (ISBN No.978-93-5811-637-3).

4. Facilitation for placement and start up

a) Arrange for training and career counselling for the students to boost placements

A no. of SDP and STTP were organized by the institute regularly for the last five years. Training and Placement cell organizes students' training program for aptitude, group discussion etc. to boost employment possibility of students, in collaboration with Campus credential on a regular basis. Different SDP's were also conducted like Data Science, Python, Solid works, Artificial Intelligence, Java Fullstack Development to name a few. As a result the placement has been improved after COVID situation.

YEAR	No. of students Appeared	No. of students Placed	%	REMARK
2018-19	446	216	48.43 %	
2019-20	419	315	75.17 %	
2020-21	517	49	9.47 %	lockdown
2021-22	464	115	24.78 %	
2022-23	282	149	52.83 %	

b) Establishing incubation cell and startup centre

Institution has established a fully functional incubation centre where students are encouraged to establish start-up, and also provided with financial help.

Our students Anshu Bind, Manvit Bhandari and Gyanranjan Jha have started a start-up named "Salient Devs" for software development in collaboration with the institute.

c) Motivate the students for entrepreneurship

A number of seminars are being organized every year inviting experts and alumni members to motivate students to establish their own start-up. Awareness of Intellectual Property Rights (IPR) among faculty and students is promoted by organizing various seminars and workshops

As part of IIC activities seminars on IPR are regularly organized.
